

AsyncPropertyRequest

```
classDiagram
    class AsyncPropertyRequest
    class AsyncPropertyReply
    class AsyncSetPropertyRequest
    AsyncPropertyRequest <|-- AsyncPropertyReply
    AsyncPropertyRequest <|-- AsyncSetPropertyRequest
```

The diagram illustrates a class hierarchy. At the top is the class *AsyncPropertyRequest*. Below it are two subclasses: *AsyncPropertyReply* on the left and *AsyncSetPropertyRequest* on the right. A horizontal line connects the two subclasses, with an upward-pointing arrow from the center of this line to the bottom of the *AsyncPropertyRequest* box, indicating inheritance.

AsyncPropertyReply
